I choose this piece because it is funny. What do I like about it? What is good? I like it because it is funny. What I don't like about it. What I will work on? I will what on my name are.

The reason I picked this journal entry because the play dough death I found this very interesting myself. My greatest strength is the how long to life. My greatest weakness is the sloppiness. If I can spell good I hated the work and my hand hurts a lot. If I was not sloope.
