

I chose this story because it was an amazing experience. Because I got to see a snake, turtle and a big bass. I wanted other people to know what I learned.

I used periods, indented capitals and big words. I wrote neatly, in long sentences. My writing is clear to the reader. I wrote about a true story.

I need to write neater. I need to write more and write more stories. If I keep writing, I will become a better writer.

I chose this story because it was my favorite memory about Halloween when we went out for a long time. We went out for Halloween at 9:00, and came back at 11:45.

We went to a lot of places.

When we got back I was really tired, so I went to bed right when we got home.

What I do good as a writer is I paragraph good, I use periods good, I spell good, and I can write in good cursive.

What I don't do good as a writer. I can't really proofread good, I can't find commas so good, and I can't really find where I left off.
