

## **REVENUES FROM TAX SOURCES**

In an attempt to provide the best education possible within the financial resources available and to maximize state and federal funds, the school board will

1. request adequate local funds for the operation of the school district;
2. accept all available state funds to which the district is entitled by law or through state regulations; and
3. accept all federal funds that are available providing there is a specific need for them and matching funds that are required are available.
