

## **ADULT FOOD SERVICES**

Only employees of the food service department shall eat meals free in the school cafeterias. A food service employee shall be defined as an employee who receives all or part of his/her salary from the food service budget or an employee who contributes a vital service to the food service department. The final decision as to whether a certain employee qualifies as a food service employee rests with the superintendent of schools.

All other employees must pay the current price for non-reimbursable meals regardless in which of the school the meals are eaten. The price of a non-reimbursable meal shall be at least equal to the amount of reimbursement received for a free lunch under Sections 4 and 11 of the National School Lunch Act, plus the per meal value of both entitlement and bonus donated foods.

The charge for a non-reimbursable meal will be reviewed annually by the food services director and the superintendent for possible revision.

Non-reimbursable meals shall be the same size portion as the largest student portion. Seconds shall be available on the same basis as for students.

Also, all other employees, including school board members, shall purchase meal tickets which must be presented at the time of service. This policy shall remain in force on all days meals are served, including holiday meals. Those employees wishing to purchase breakfasts may do so by presenting their regular meal tickets.

Persons not employed by the school district (either children or adults) shall not eat in the school cafeterias except in the following cases:

1. inspectors or reviewers who request to be served; or,
2. other visitors who might happen to be at a school when meals served.

Persons not employed by the school district (children and adults) shall pay the current price for non-reimbursable meals served to employees. Visitors may pay in cash to the persons responsible for collection of meal money.

Parents are invited to eat meals with their children. The cost of any meals served must be paid to the food service fund by charging the parent. The amount charged shall be the same as for other non-reimbursable meals. If many parents are invited at one time,

other funds may be used to pay for additional food, supplies, and time needed to prepare the meal.
