

NEGOTIATIONS PROCEDURES

The board, through its designated representatives, will meet with representatives of each recognized organization to negotiate and attempt to reach agreement on matters pertaining to salaries, terms and conditions of employment, and processing of alleged grievances. Specific procedures for opening, conducting, and closing negotiations with each group are negotiated with each group.

Individual board members cannot negotiate privately with representatives of any employee unit unless authorized by the Board.

It is the responsibility of the superintendent's office to revise and update the board's policy manual at the conclusion of the negotiations process.
